MEDICAL TABLET DISCOVERY!

SAFE, NEW,
EASY WAY!

STOPS "BED WETTING"

Without Electrical Devices...
Rubber Sheets... Alarms...

Ends Shame, Discomfort, Inconvenience
Almost Miraculously!

SIMPLE SAFE TABLET DOES IT

DRY-TABS is the same safe medical discovery that is prescribed by many doctors. Now, it is available for the first time without prescription to all the victims of BED-WETTING who long to rid themselves of this distressing habit once and for all. DRY-TABS is safe, not habit forming. Contains no harmful drugs—Follow simple directions.

"DRY-TAB THERAPY" Eventually Allows BED-WETTING Victims to Function Normally Without Further Medication

DRY-TABS, in most cases, does not offer merely temporary stopping of BED-WETTING. In case after case, as revealed in clinical tests conducted in hospitals by medical scientists, the DRY-TABS formula proved itself to be a tablet that gives direct support to the patient in controlling his BED-WETTING. The benefits of the DRY-TABS formula may be expected to be effective beyond the period when it is taken regularly. It helps the BED-WETTING victim to retrain, tends to increase strength of sphincter and detrusor muscles controlling urination. Many cases have discontinued the use of DRY-TABS after a short time and found they were functioning normally. So BED-WETTING victims do not have to be slaves to any kind of medication if their case is of the type that responds to the re-training power of DRY-TABS. This is probably one of the greatest advancements ever made in BED-WETTING therapy. You once DRY-TABS stops BED-WETTING, its use may no longer be required, normal functioning and control may be developed almost miraculously. So don't hesitate a minute longer. Order DRY-TABS Today!

DRY-TABS Amazing Formula Effective in 75% of Cases

CASE NO. 1. Healthy, intelligent boy, 9 years old. Bed-WETTING since infancy. Child could not break habit. All other medication failed. DRY-TABS formula taken for two three-week periods. Child has remained well for the past three years.

CASE NO. 2. Normal boy, history of BED-WETTING since infancy. Child had no organic defect. Various cures failed. Put on DRY-TABS formula regime. After a month, habit suddenly stopped.

CASE NO. 3. Male, aged 23 years. BED-WETTING since birth. Many forms of treatment failed. Unable to accept invitation to sleep out over-night. Recently married, and embarrassed by habit. After formula taken, wet bed the first two nights but never since that time.

CASE NO. 4. Girl, aged 6 years. Wet bed since infancy. Nervous, irritable. DRY-TABS formula administered for regular period. BED-WETTING stopped almost immediately. Slight relapse. Formula administered again. Child responded immediately once more, and history reveals no further relapse.

CASE NO. 5. Man, 42 years old, wet "heavily." Medication started. Wet during second week and continued to wet when medication was withdrawn for following week. Restarted after rest period, and after five-day treatment seemed to retain control of bladder function.

CASE NO. 6. Woman, 76 years old. DRY-TABS formula administered for 5 days. Improvement, upon withdrawal of medication, improvement remained. Continued gradual return of control. One year without formula and control is adequate.

WHY endure the needless shame, embarrassment, humiliation... the discomfort and distress of this unfortunate habit? Why put up with the daily nuisance of changing and washing bed linen and clothes? Why suffer the mortification of foul smelling bedrooms... the expense of ruined furniture... the danger of catching cold and infectious rashes?

Doctors agree that BED-WETTING can cause nervousness, stuttering and emotional disturbances in children, very often seriously affecting their future and character, making them "psychological cripples."

But now the disgrace and danger of BED-WETTING can very easily be a thing of the past with amazing new DRY-TABS. At last, medical science has discovered a safe, new, easy way to stop BED-WETTING without electrical devices... without rubber sheets, alarms or special diets and without interrupting needed sleep. DRY-TABS, in easy-to-take tablet form, does away with BED-WETTING as painlessly, easily and simply as swallowing an aspirin. Yes, almost miraculously, amazing, safe DRY-TABS, used as directed, help stop functional BED-WETTING... relieve tension and strain, often the underlying cause in most cases of this unfortunate habit. Now, for the first time, safe DRY-TABS can be obtained without prescription.

DEVELOPED AFTER YEARS OF EXTENSIVE HOSPITAL AND CLINICAL RESEARCH AS REVEALED IN MEDICAL LITERATURE

The discoveries of science, many times, are brought about by indirect means. Take the case of the exclusive DRY-TABS formula. Medical practitioners chanced upon this formula while they were investigating a cure for another illness. Noting the remarkable effect that this formula had upon BED-WETTING they concentrated their efforts on this new data and developed the formula to its present state of perfection. The result is the new DRY-TABS, a remarkable tablet that has brought new hope to thousands of tormented victims of BED-WETTING. Before this formula was released to the public, it was tested in clinics and hospitals by medical scientists on controlled groups of patients. The DRY-TABS formula is the result of thorough medical research, the same kind of research and care that is given to any product that is to be placed in the hands of the public. Chalk up BED-WETTING as one more ailment that has been conquered by the men of science. Think of it, no expensive electrical devices, cumbersome rubber sheets, special diets or mechanical alarms. Just a wonderful new tablet... DRY-TABS... product of medical research... offering the hope of a new future for all these sufferers of BED-WETTING. Be sure to order DRY-TABS today!

SAGA OF STEEL

IT STARTED at a junk heap in New Jersey. Hundreds of old automobile frames lay in the hot sun waiting as the pile-driving machines pounded them into huge chunks of steel. Then to waiting railroad cars where they were deposited and then shunted on the second step of their journey to a smelter somewhere near Pittsburgh. A few days later the process was completed and the long sheets of steel made their next journey . . . a factory in Detroit. There the sheets were poured, moulded and riveted. Workmen climbed over the squat forms and put the finishing touches to the product. An Army driver clamored inside, worked the gears, and put her through her paces. She was pronounced okay. Another tank was ready for the Army.

A few weeks later a freighter docked at Pusan in Korea. Several hours later she was unloaded and headed back toward the open sea. Four GIs ambled on to the dock and took a look at what had been unloaded.

"Pretty neat looking job, Sarge."

"Yeah, she must be one of the newest models."

"Sure, look at that gun . . . it's a 90mm. Don't see many of them around."

"Well, let's stop talkin' about her and see how she operates."

The four men climbed aboard the metal monster, listened with a grin as the motor purred like a kitten, and then headed her off the dock toward the front lines.

A few hours later the tank ground to a halt at the tank company's bivouac area be-

hind the lines. The four men jumped to the ground with deep grins on their faces.

"She'll do."

"Plenty good. She's got what it takes."

An officer came over to the four men who were still grouped around their new tank. They came to attention as he addressed them.

"At ease, men. How is she, Sarge?"

"Best I've seen so far. These Walker jobs are okay."

"Good enough to take her out right away?"

The sergeant's eyes blazed with anticipation. "You bet, Sir. What's the deal?"

"Not much, just a routine patrol up toward Chen-yu. Take it easy though and come right back if you run into any trouble. We just want to know if you run into anything up that way. Give yourself about four hours and then call it a day."

The four men saluted, then wheeled and trotted to the tank. They grinned and patted each other on their backs as they clamored into position. A few moments later the tank trundled out of line and made her way to the edge of the company's positions. Other tankers watched them until the heavy dust hid them from view. The tankers shrugged and then went back to work on their own monsters.

"See anything, Sarge?"

"Nope, not a thing. Too quiet for me though, better get ready for something."

The tank clanged its way down the dusty road that could only be located by saying it was somewhere in "No Man's Land."

“Road block up ahead!”

The tank ground to a halt as she neared the pile of lumber. Uneasy apprehension gripped the four men as they waited for the next move.

TTSSSIINNGGG!

The bullet ricocheted off the steel sides and then reverberated throughout the insides of the tank. The sergeant dropped down from his observers post slamming the metal cover as he dropped among the men.

“Must be a patrol. They’re dug in behind that road block!”

“What do we do, turn and run? That’s what the Lieutenant said.”

“Never mind that, we can take these guys easy. Just pour some coal to this heap and bust it through the blockade. Keep those machine guns working . . . it’ll keep ‘em busy!”

The men grinned and then went to work. This was their business . . . and they knew it well.

The metal monster gathered momentum as it picked up speed. The enemy crouched behind the barrier firing at the tank as it headed toward them. Then they leaped to their feet in terror as they realized what was happening. Many of them fell before the machine gun fire and the rest were mopped up as the heavy steel frame bolted through the wooded blockade. It was like a knife going through matches. In a few moments the skirmish was over. The men inside the tank grinned at each other.

“Come on, let’s get out of here . . . they might have some friends hanging around!”

The tank headed down the road churning up dust as it moseyed along.

About a mile up the road a piece of metal glinted in the afternoon sun. Just a small piece, the rest of it lay covered by the gray dirt of the countryside. It sat there, small, hot from the rays of the sun . . . waiting . . . waiting . . . waiting.

“See anything up ahead, Sarge?”

“Nope, not a thing. We’ll go up to that bend then turn around and head back to the area.”

The tank neared the small piece of metal . . . came closer and closer . . . and finally one of the treads made the contact jarring the fuse.

KAAABLAAAM!

The explosion rocked the tank as the mine went off. The tank shuddered to a halt and then seemed to settle into the ground. Flames licked at the steel frame nibbling at the exits. Finally a tongue lashed against the ammunition and another explosion splattered the frame.

Days later a salvage crew poked at the wreckage.

“Nothing we can do, better send it back.”

“Yeah, it’s just a waste leaving it here.”

A huge crane was moved into position and lifted the steel hulk onto a truck. The truck backed off then turned and headed toward the port of Pusan. A while later the wreck was aboard a freighter. It was headed back toward the United States. There it would be repounded, remoulded and reshaped . . . into another steel monster. Thus ended the tale of a tank.

DISREGARDING HIS OWN SAFETY, STAN MADE A DIVE TO COVER THE KID FROM BROOKLYN...

HAD TO MAKE SURE YOU GOT HOME, DIDN'T I?
WHO'S GONNA INTRODUCE US TO ALL THOSE PRETTY SENORITAS IF I LET YOU GET KNOCKED OFF?

"DYNAMIC TENSION"! That's the ticket! The identical natural method that I myself developed to change my body from the scrawny skinny chested weakling I was at 17

—Henry Neven, Canada

"I gained 34 lbs. and increased my chest 6 inches!"

—F. S., New York

"Gained 29 lbs. When I started

your course I weighed only 141. Now I weigh 170."

—T. K., New York

"The benefits are wonderful. The first week my arm increased one inch, my chest two inches."

—E. M., Conn.

When you have learned to develop your strength through "Dynamic Tension" you can laugh at the artificial muscle-makers. You simply utilize the DORMANT muscle-power in your own God-given body—watch it increase and multiply double-quick into real solid LIVE MUSCLE.

My method—"Dynamic Tension" will turn the trick for you. No theory—so easy! Spend only 15 minutes a day in your own home. And you'll be using the method which many great athletes use for keeping in condition—prize fighters, wrestlers, baseball and football players, etc.
